

APPLY TODAY!

YOUNG LEADERS COMMUNITY OF PRACTICE

The Rhode Island Association for the Education of Young Children is seeking students and professionals between 20-30 years of age to participate in a community of practice that will influence the field of early childhood education. Your participation will help our organization recruit more members, strengthen the retention and engagement of other young professionals, and advocate for Rhode Island's youngest children.

Members of the Young Leaders Community of Practice will serve for one year and meet bi-monthly to participate in professional development, discussions of current issues affecting the field, and networking events.
